We are the General Contracting Company.

The contracting sector in the Kingdom of Saudi Arabia is witnessing rapid growth and increasing in the demand for specialized companies qualified to execute a number of large projects.

Jubail Star General Contracting Company with its expertise in the maintenance of railways, construction & maintenance of sand berms and fence construction & maintenance has shown its commitment in the execution of the projects.

On the other hand, Jubail Star also engaged in Waterline networks project in the King Fahad Suburb in Dammam.

Such works require high professionalism and efficiency in the performance. With our commitment towards quality and attention to details at all levels enabled us to achieve consistently advanced results.

Our Company

Jubail Star General Contracting Company started operations in the contracting sector as an Establishment in 2018 in Al-Jubail, Eastern Region, Kingdom of Saudi Arabia. With its perseverance and commitment in the field boost its capacity and gain the trust of its client that lead him to revision its status as a Contracting Company. The commitment and the professional expertise of its team, JSCO has earned the distinctions that open its door to projects opportunities in the Kingdom.

Our Group of Companies

- We are also a group of companies operating in various sectors of the construction, mainly in the infrastructure (Railway, Road and Bridge, Pipeline Works, Earth Works, Fence Works and Building Construction). Our collaborative efforts include a company that has been operational since 2007, indicating a significant track record and experience in the field. With an annual business turnover of 300 million Saudi Riyals, our group demonstrates substantial financial strength and stability in the market.

Our primary focus is on contributing to the construction industry through various projects and initiatives, likely including infrastructure development, building construction, and possibly other related sectors such as real estate development, engineering services, or construction materials supply.

General Manager's Message

The beginning was just a dream, then it comes true

The beginning was just a dream, then it comes true... thanks to Allah The Almighty always and to the efforts of the loyal employees of Jubail Star General Contracting Company .

The kingdom has accompanied economic development through modern and sophisticated methods that have helped to attract investors and increase the economic activity in the country, so we have been eager to continuously develop to raise the efficiency of the company with the policies and strategic plans we aspire.

Since we started in JSCO contracting to practice our business and reputation grows among our customers as prominent companies in the kingdom. The quality of performance on all levels and the satisfaction that we feel from our clients are the basis of our success and proud to stand behind it. Our team works in one spirit, each one of them has a strong sense of responsibility and a power to offer the best efforts they can.

Today in JSCO contracting, we have established our principles based on making the concept of quality a sole option for ranging from work in projects such as Railway maintenance, construction and maintenance of sand berms, construction and maintenance of fence, railway tracks platforms and ductile waterline project. JSCO also provide equipment rental and it is characterized by high quality. In addition to the specialized earth works to provide the best services to our customers, who believe in our power and our capabilities in fulfilling our obligations under all circumstances, as they trust that the result they receive will be above their level of expectations.

Our Scope

I. Global Track Maintenance Project (GTMP) in CTW120 Jubail / Dammam / Hofuf:

Jubail Star General Contracting Company is an approved sub-contractor of the **Saudi Arabia Railways** Global Track Maintenance Project (GTMP) that connect the lines from CTW120 Jubail, Dammam and Hofuf with an approximate 600 kilometers. The maintenance work covers Sand Berms Construction, Sand Berms Maintenance, Leveling and Grading of Service Roads, and Fence Construction & Maintenance.

1. Sand Berms Construction

The construction of sand barriers are parallel to the railway tracks based on the three (3) types depending on the distance from the track centre line.

2. Sand Berms Maintenance

The maintenance work on the existing sand barriers due to accumulation of sand under the railway track and reconstruction maintenance of berms.

3. Leveling, Grading of Service Roads

Maintenance of service roads includes the cleaning of sand barriers which are blocking large quantities of sand and the sand is approaching the service roads.

4. Fence Maintenance

The work focuses on rectification of fence due to damage of trespassers and sand erosion.

II. Ductile Waterline Project, Dammam

Construction of waterline network project in King Fahad Suburb, pipe sizes of 200mm to 1200mm dia.

Our Scope

III. CTW130 Sadara Rail Project & Jubail Railway Network Project

Jubail Star General Contracting Company is a sub-contractor of Yapi Merkezi in the CTW130 Saudi Arabian Railway project in Jubail. The project is approximately 60 km.
